e³ european entrepreneurship excellence

Bavaria, in particular Munich represent a cosmopolitan business community. This is not only reflected in the numerous international companies, which run their European business from Munich, but also in the many Bavarian SMEs conquering international markets and internationalising from a Bavarian base.

The e³ event

With e³, the Munich Business Plan Competition (MBPW) celebrates its new headquarter at the MTZ II, the brand new technology centre in the city of Munich. A highlight at the MTZ II is the first MunichTouchdownBase, a new office service facilitating market access for newcomers.

On the first day, the EurOffice Service Consortium Munich will present its various services that assist knowledge-based companies along their way to internationalisation. Leading international innovation regions (LIIR) from Europe, Asia and beyond will demonstrate their strengths as attractive business locations. Afterwards, One-2-One Business Matchmaking Meetings between SMEs wishing to internationalise, local professional agencies supporting this endeavour and LIIR representatives will be scheduled for registered participants.

On the second day, presentations from the MBPW and local authorities focus on cross-cultural business opportunities and best-practices. Specialised workshops and panels with foreign co-partners deal with entrepreneurship topics and company-exhibitions inform about the potential of innovative Bavarian SMEs.

Participants

e³ is aimed at founders and new entrepreneurs, young and high-growth companies, the MBPW Alumni Community, ambassadors of international business plan competitions and especially knowledge-based Bavarian companies which are interested in internationalisation.
