Dovetail Games: Euro Fishing

What a great catch! - Start fishing with astragon on November 13th, 2015

Moenchengladbach/Germany, November 11th, 2015 – Great news for all fishing enthusiasts: On November 13th, 2015 the simulation specialists from astragon Entertainment will release the fantastic fishing simulator **Dovetail Games: Euro Fishing** as digital download on numerous online platforms.

The lake is quiet, fat carps swim languidly along its bottom looking for tasty morsels– the perfect place for ambitious fishermen and hobby anglers! No matter if beginner or pro, lone wolf or together with friends in the multiplayer mode – each and every player will be able to thoroughly enjoy **Dovetail Games: Euro Fishing**. In five lovingly designed fishing locations numerous kinds of ground fish such as carp, tench, bream, roach and catfish wait to be caught with the right set of professional equipment and baits by famous makers such as Korda, Delkim, Mainline, Sonik and Wofte. The „Total Cast Control“ feature will give you a realistic sense of casting and reeling your fishing line while you try to catch your elusive prey.

Water temperature, weather conditions and the chosen type of bait will influence the behavior of the virtual fish – just like in real life! It is therefore very important for the player to choose his equipment wisely and assemble it perfectly to fit his desired catch. Due to the beautiful hyper-realistic Unreal-4®-graphics the game’s environment will be a real visual treat while you are waiting for the perfect carp.

Everyone looking for some action by the lakeside should not miss the multiplayer mode in **Dovetail Games: Euro Fishing**. In exciting fishing tournaments, players will compete against friends and rivals around the globe for the biggest catch on the hook!

Dovetail Games: Euro Fishing will be available on digital download platforms on November 13th, 2015 for Euro 24.99/ 24.99 USD /GBP 19.99.

About astragon Entertainment GmbH and astragon Sales & Services GmbH

The astragon Entertainment GmbH and the astragon Sales & Services GmbH have emerged as the core of the newly created astragon group formerly consisting of the two games publishers astragon Software GmbH (founded in 2000) and rondomedia Marketing & Vertriebs GmbH (founded in 1998) in July 2015. Today, the astragon group is the second largest producer and marketer of computer games in Germany (number of units CD-ROM/DVD as per GfK Media Control, complete annual evaluation 2014).

The main focus of the group's product range lies with casual games and technical simulation games for PC. Adventure games and economy simulations complement astragon's diverse portfolio. The popular game series "Big Fish Games", "play+smile" and "Best of Simulations" form three strong umbrella brands by astragon in retail market. Additionally to the distribution to retail partners in the German language area by the astragon Sales & Services GmbH, products are also marketed internationally under license and via download by the astragon Entertainment GmbH. Games for consoles, mobile devices as well as smartphones and tablets complete astragons product range. For more information, please visit <http://www.astragon-entertainment.de/en/>.

About Dovetail Games

Dovetail Games was launched in 2013. Previously trading as RailSimulator.com Ltd, the business launched in 2009 and produces and markets Train Simulator.
