FRITSCH Milling

Revolutionary technology - revolutionary design: The new FRITSCH *premium line* combines highest performance with an especially simple operation.

FRITSCH PULVERISETTES are particularly well suited for wet and dry milling of hard-tough, fibrous, elastic and soft materials. They will mill samples of several millimetres to several kilograms in various degrees of fineness up to under one μm . They are absolutely dependable, simple to operate and easy to clean. Corresponding grinding parts made of various materials are available and are the best guard against unwanted contamination of samples.

NEW: Planetary Mill *premium line* – the first Planetary Ball Mill with sunken grinding bowls. Brilliantly simple – brilliantly effective! This allows us to reach rotational speeds never known before and achieve ultrafine grinding results down into the nano range. Faster, simpler and safer than ever. A new dimension in high-tech milling!

FRITSCH. WE SET STANDARDS.

Test us:

We could probably tell you a lot – convince yourself! Simply send us your sample now for a [test analysis](#) and compare for yourself!
