

AURANIA COMMENCES DRILLING AT COPPER-SILVER TARGET IN ECUADOR

Toronto, Ontario, September 14, 2020 – Aurania Resources Ltd. (TSXV: ARU) (OTCQB: AUIAF) (Frankfurt: 20Q) (“Aurania” or the “Company” - <https://www.commodity-tv.com/ondemand/companies/profil/aurania-resources-ltd/>) reports that drilling has commenced on the Tsenken N2 copper-silver target at the Company’s Lost Cities – Cutucu Project (“Project”) in southeastern Ecuador.

Dr. Keith Barron, Chairman and CEO of Aurania commented, “I’m delighted to report that drilling has started at the Tsenken N2 target. The man-portable rig was airlifted to the first drill platform by helicopter last week and drilling started on Sunday. The light-weight rig has the capacity to drill to 800m (2,400 feet) so that each drill hole can test both cylindrical porphyry targets as well as enclosing sheet-like sedimentary-hosted copper-silver targets.”

Figure 1 shows the exploration concept that will be drill-tested at Tsenken N2: slightly inclined sedimentary layers partially cover roughly cylindrical-shaped porphyry copper targets. The first drill holes are planned to a depth of approximately 400m (1,200 feet). After drilling three to five holes at Tsenken N2, the plan is to move the rig to test the Tsenken N3 target.

Results will be reported as they become available, likely commencing in the latter part of October or early November.

Forward-Looking Statements

This news release may contain forward-looking information that involves substantial known and unknown risks and uncertainties, most of which are beyond the control of Aurania. Forward-looking statements include estimates and statements that describe Aurania's future plans, objectives or goals, including words to the effect that Aurania or its management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to Aurania, Aurania provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, Aurania's objectives, goals or future plans, statements, exploration results, potential mineralization, the corporation's portfolio, treasury, management team and enhanced capital markets profile, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, regulatory, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in Aurania's public documents filed on SEDAR. Although Aurania believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. Aurania disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
