

## A TAIL WITH STYLE! WUNDERLICH TAIL SECTION FOR THE R NINET

The WunderBob embodies the great success of BMW accessories specialists Wunderlich were in presenting their idea and their own interpretation of a BMW Bobber based on the regular R nineT. But the tail concept isn't limited to Bobber conversions by any means.

Even though the Wunderlich conversion is predestined for a Bobber, it isn't restricted to a Bobber. It encapsulates a markedly attractive and exciting tail variant for anyone who would like to kit out their R nineT with an individual, short tail together with a single seat.

The WunderBob tail section forms the basis here. The tail section consists of a stainless steel loop in addition to a stainless steel tail cover on the underneath, both of which are black powder-coated. The corresponding, proofed brake and tail light combination integrates into the design of the conversion. This can be combined with a choice of one of the two seating variants from the Rhineland-based team, either with a refined nubuck leather or synthetic leather saddle. The specialists from Sinzig have also developed a matching aluminium fender that is closely moulded to the rear wheel. This level of precision requires secure and vibration-free attachment. The fender is incorporated into the drive shaft swing arm on one side, almost as if it were flying. Wunderlich even offers two variants here, too: one black powder-coated and one made of brushed, pure aluminium. The holder also comes in black. The necessary attachment material is of course included in the scope of the delivery.

All of the components mentioned are Made in Germany and come with a 5 year warranty from Wunderlich.

With this elaborately engineered concept and other variants of the tail section for the R nineT, the Pure, Scrambler, Urban G/S, Racer and soon also for the /5 series, the BMW specialists have provided a veritable construction kit for conversions that leaves nothing to be desired. Naturally, all of this comes with components that you can relax about while on the go because they are „road legal“, meaning they are approved for road use or don't require approval. The complete BOXER-SPIRIT range from Wunderlich comprises more than 1,500 products and components for R nineT model series.

### Item-No.:

44852-000 - Wunderlich »WunderBob« tail section for R nineT  
44118-105 - »WunderBob« seat in genuine nubuck leather  
44118-106 - »WunderBob« seat in synthetic leather
