Lantech IPES-0104FA

4 10/100TX PoE at/af + 1 100FX Industrial Unmanaged Switch

IEEE 802.3at/af PoE+ standard

Built-in 4port PoE injectors up to 30W per port

Relay contact to connect with alarm system

Wall-mountable and DIN rail mountable

Wide operating temperature range from -40°C to 75°C

The Lantech IPES-0104FA is a 4 x 10/100TX + 1 100FX with 4-PoE-injector Industrial PoE+ Switch feeding up to 30W/port for plug-and-play installation. This slim switch is Wall-mountable or DIN rail mountable, making installation easier and flexible.

The IPES-0104FA is designed to meet with critical network environment with IP 30 enclosure and test under extensive Industrial EMI and Safety standards. It supports EFT protection for 2000VDC power and 6000VDC ESD contact protection, which can reduce unstable environment damage caused by power line and Ethernet. The IPES-0104FA also supports IEEE 802.3at/af standard for PoE/PoE+ auto-detection and PoE classification resistors for hand-shaking with PD (power device), which can prevent any connected devices from burning down by sending high voltage (48V) out.

The Lantech IPES-0104FA is the best Industrial switch to connect with IP Camera, Wireless Equipments where are placed outdoor or tight space cabinet such as street cabinet, wireless hotspots etc.
