

ADVANTECH-AURES presents modular POS and self-checkout solutions at EuroShop 2026

Düsseldorf – 22-26 February 2026 – Hall 6, Booth G46

Maisach – Germering, January 2026: Following the successful merger of ADVANTECH and AURES Technologies under the ADVANTECH-AURES brand, the company is continuing its innovation strategy and will be presenting modular POS systems and self-checkout solutions for international retailers at EuroShop 2026.

Focus on flexibility and design

The new modular POS terminals from ADVANTECH-AURES offer retailers maximum adaptability: from compact POS systems to fully integrated self-checkout stations. Thanks to the modular concept, components such as scanners, payment terminals, and displays can be flexibly combined — ideal for different store concepts and customer journeys.

Self-checkout for the future of retail

With its new self-checkout solutions, ADVANTECH-AURES focuses on speed, ergonomics, and brand customization. The systems are not only technologically advanced, but also visually customizable to emphasize brand identity in the store. They are complemented by integrated Advantech IoT features and edge computing functions that enable intelligent networking and analysis.

„Stronger Together“ – Innovation from two worlds

“EuroShop 2026 is the perfect platform for us to showcase how we combine design, technology, and flexibility,” explains Hilmar Buchwald, Head of ADVANTECH-AURES DACH. “Our solutions are not only powerful, but also designed to improve the customer experience in retail in the long term.”

ADVANTECH-AURES' vision for 2026 and beyond

ADVANTECH-AURES has ambitious goals to transform retail and hospitality with innovative technologies.

The focus for the coming years will be on:

Positioning as a leading provider of end-to-end IT solutions for retail and hospitality

With ADVANTECH's expertise in logistics and IoT, ADVANTECH-AURES will present complete end-to-end solutions at EuroShop 2026 – from goods receipt to POS and self-checkout processes. Retailers benefit from a single point of contact for all their requirements.

Expanded product range with a focus on innovation

At the ADVANTECH-AURES booth, visitors can experience the latest POS and self-checkout systems, including the modular all-in-one POS system YUNO-C, the powerful UTM display series, and interactive kiosk solutions. The portfolio is complemented by the iVision Suite software for intelligent video analysis and DeviceOn, the platform for remote device management and monitoring.

From standard to customized – solutions for every requirement

ADVANTECH-AURES offers a wide range of products: from standard POS terminals to fully customized, turnkey solutions. These include co-branding options, tailor-made hardware, and modular concepts for maximum flexibility.

Leading in edge computing and AI integration

ADVANTECH-AURES goes beyond traditional hardware and is establishing itself as a provider of intelligent platforms for edge computing, AI, and IoT. With solutions such as iVision Suite and DeviceOn, the company supports retailers in digitizing and automating their processes — as part of its “Intelligent City Services” vision.

About ADVANTECH and ADVANTECH-AURES

ADVANTECH's corporate vision is to enable a “Smart World”.

Founded in 1983, the company is a global leader in IoT intelligent systems and embedded platforms. To meet the trends of IoT, big data, and artificial intelligence, ADVANTECH promotes IoT hardware and software solutions with the Edge Intelligence WISE-PaaS core to help partners and customers connect their industrial and business processes. ADVANTECH also collaborates with business partners to create business ecosystems that accelerate the goal of industrial intelligence. The group employs 8,800 people worldwide in approximately 100 regional locations and generated revenue of USD 2.07 billion at the end of 2023.

www.advantech.com

Formerly known as “AURES Technologies,” the company was acquired by ADVANTECH in early October 2024 and has since been operating under the name ADVANTECH-AURES. ADVANTECH-AURES designs, develops, and manufactures IT hardware solutions (POS & KIOSK) for all point-of-sale and service sectors. Its comprehensive product ranges of POS terminals and systems as well as

interactive KIOSK solutions are specifically designed for the retail and commerce, hospitality (hotels, restaurants, and catering), leisure and entertainment, transportation, public and other services, and industrial sectors.

ADVANTECH-AURES operates worldwide, with headquarters in France, offices in the UK, Germany, Australia, and the US, and a network of partners, distributors, and resellers in over 60 other countries.
