Major order from an international customer: Rheinmetall to supply Skyguard 3 air defence systems – contract worth around €65 million

Rheinmetall has been awarded by an international customer to supply air defence systems. The deliveries, which also include ammunition and spare parts, are scheduled to be completed in 2024. The total value of the order is around €65 million.

The systems ordered are Oerlikon Skyguard 3 with GDF009 twin guns and airburst-capable AHEAD ammunition, also produced by Rheinmetall.

The order is of great importance to Rheinmetall. Not only does it strengthen existing customer relations, but it also underscores the high degree of confidence in Rheinmetall's world-leading expertise in the field of ground-based air defence.

Rheinmetall is one of the world's leading manufacturers of advanced air defence systems. In automatic cannon-based air defence, the company is the market leader and the only comprehensive systems supplier for fire control technology, automatic cannons, integrated guided missile launchers and Ahead airburst ammunition. Air surveillance systems and radar technology, powerful sensor technology and high-energy laser effectors round off the portfolio.

► Key facts

- ▷ Rheinmetall supplies Skyguard 3 air defence systems to international customer
- ▷ Total order volume around 65 million
- ▷ Delivery to be completed in 2024
- ▷ Order underscores Rheinmetall's high level of competence in ground-based air defence
