

New terminals for warehouse and logistics from Advantech-DLoG at LogiMAT 2017

Advantech-DLoG is launching new vehicle terminals for extremely demanding environments at the LogiMAT 2017

Germering, February 6, 2017– Increasing demands on quality and safety; high international safety regulations – the demands on vehicle terminals are also continuing to grow in 2017. Advantech-DLoG is presenting vehicle terminals at this year's LogiMAT, which extensively extend the product portfolio for warehouse management and the supply chain and are certified for use worldwide. The measurement details are presented at a launch event at the booth.

Strong in partnerships and solutions

„What counts for our customers and partners is that we present complete solutions, not just a `piece` of hardware or software“, says Manfred Lachauer, General Manager of Advantech-DLoG. That is why partner solutions are presented on the booth – a small insight into the newly initiated Advantech Innovation Hub in Germering.

The Advantech Innovation Hub is a virtual world for virtual concepts and platform for exchange with software partners, solution providers, customers, suppliers and universities. The main goal is working together in the network on the solutions of the future.

DLT-M8110 combines robust features with unlimited mobility

The new DLT-M8110 from Advantech-DLoG is a removable, mobile vehicle terminal and has been developed to optimize the industrial warehouse operation. The all-in-one device can be docked and undocked quickly and easily using a quick-release-button; two safety locks protect against theft or accidental falls.

New heavy duty logistics terminal DLT-V6210

The logistics terminal DLT-V6210 is suitable for extremely demanding environments in intralogistics and ports. The rugged DLT-V6210 provides rough handling and the scratch-resistant capacitive touchscreen can even be operated with gloves. Especially for this

terminal, Advantech-DLoG has developed high-performance low-diversity WiFi antennas with reduced height.

Terminal novelties for the wide use

In addition the new vehicle terminals DLT-M8110 and DLT-V6210, Advantech-DLoG is presenting further product innovations for the most demanding environments. The new terminals are characterized by slim design, excellent roaming behavior and versatile features. Equipped with haptic keyboards and large touchscreens, they ensure flexible handling as well as ergonomic and precise inputs.
