Einführung | Introduction

Many trends are currently favouring the markets for structured finance in Europe; the European Commission wishes to revive the securitisation market through the debate on the right way to formulate a Directive on standardised, transparent and simple securitisations. In addition to securitisations of that kind, the move towards a capital markets union is drawing considerable attention to other forms of risk transfer such as credit funds or private placements. Structured finance is also gaining in importance: current interest rates are propelling insurance companies and pension funds into alternative forms of investment and even private infrastructure financing can be handled efficiently through structured finance. Furthermore, new growth markets, such as digitisation of the economy or the rise of fintechs, will turn out to be significant drivers of structured finance.

In 2016 you can look forward to an enthralling, up-to-the-minute event that deals with the core topics associated with the structured finance markets and the capital markets union as well as to many different exchange and networking options.

Just click on the icon and the TSI Congress 2016 meetings will be added to your calendar on 28 and 29 September 2016.

Die Zukunft der Verbriefung und Covered Bonds in der Kapitalmarktunion

Die Schaffung einer Kapitalmarktunion in Europa dürfte das anspruchsvollste Projekt der Europäischen Kommission seit Langem werden. Als erste Schritte zu dem großen Ziel will die Kommission die Verbriefungsmärkte revitalisieren und einen einheitlichen, stabilen Rahmen für die europäischen Covered Bond Märkte schaffen. Beide Vorhaben – gut umgesetzt – bringen große Chancen mit sich. Andererseits jedoch müssen die Anforderungen praktikabel und machbar sein. Mit Hoffen und Bangen schaut die europäische Finanzwelt daher nach Brüssel.

Staatsanleihen – zwischen Ankaufsprogramm, Fiskalpolitik und Aufsichtsrecht

Die Diskussion um die Behandlung von Staatsanleihen steht im Zentrum von Europas Finanzmarktstabilität. Dies unterstreicht nicht zuletzt die aktuelle Diskussion um einen weiteren Schuldenschnitt Griechenlands. Einerseits werden Banken und Versicherungen aufsichtsrechtlich ermutigt, Staatsanleihen zu halten, andererseits manifestiert sich in den hohen Beständen von Staatsanleihen bei Banken der Defizitstaaten Südeuropas die enge Verquickung von Staats- und Bankenrisiken. Hinzu kommt, dass die EZB in den letzten zwei Jahren in ihren Bilanzen im Rahmen ihres Ankaufprogramms erhebliche Bestände von europäischen Staatsanleihen aufgebaut hat. Ein spannendes Schlusspanel erwartet Sie.

Moderation ■ Stefan Ziese, Managing Director, Commerzbank

Teilnehmer ■ Ralph Brinkhaus, stellvertretender Fraktionschef der CDU/CSU-Bundestagsfraktion, Deutscher Bundestag
 ■ Dr. Moritz Kraemer, Managing Director EMEA, Analytical Manager, Standard & Poor's

Wen Sie auf diesem Kongress treffen | Who will you meet at the Congress?

The TSI Congress 2016 has the support of the entire securitisation and asset based finance industry as well as of politics and the business sector. It brings together specialists and management representatives, managing directors, partners and board members from the fields of credit and loan portfolio management, risk management, law, trade, treasury departments at banks, law firms, auditing companies, rating agencies, service providers and consulting companies as well as investors from Germany and other countries and treasurers from large corporates. As in previous years, many representatives of German business, politics and national and international supervisory authorities as well as academics working in this field will be taking advantage of the Congress as a platform to exchange professional views and experience.

Given the importance of regulation for banks' credit policy and therefore also for corporate finance, the TSI Congress is also becoming increasingly relevant to treasurers and CFOs of larger German Mittelstand enterprises. Almost 40 discussion forums and workshops together with many business events will provide extensive information as well as numerous opportunities to make contact with others. In its tenth year, the TSI Congress 2016 has now become THE platform where experts and management representatives meet.

Der Kongress im Überblick | Congress at a glance

The annual TSI Congress has now become firmly established as a key Berlin-based event in the securitisation and asset-based finance markets. In 2016 we will be celebrating its tenth anniversary. With 75 sponsors, media partners and supporting organisations together with just under 650 delegates, broad participation by, for example, the Deutsche Bundesbank, the ECB, politics, EU representatives, investors, business associations and the press, the 2015 Congress attracted all key market players to Berlin.

Rahmenprogramm | Supporting programme

TSI joins forces with some sponsors to provide an extensive supporting programme at the TSI Congress 2016. The success of a congress is partly due to the provision of ample networking opportunities and time to discuss matters with clients in a relaxed atmosphere. TSI's supporting programme, which starts on the evening immediately preceding the congress with a reception given by KfW on 27 September 2016, provides many opportunities to meet clients or to expand personal networks over a glass of wine and light refreshments or on a sightseeing tour.

- KfW Reception
- Networking Reception
- Special Wine Evening
- Chill-out and Get-together
- Visit to the Dalí exhibition
- Visit to the Natural History Museum
- Guided tour of central Berlin
- Closing Reception
