24 May 2024

### Major order for ammunition: NATO customer orders artillery ammunition from Rheinmetall – worth almost €300m

A NATO customer has placed an order with Rheinmetall for the supply of artillery ammunition. The order comprises several tens of thousands of artillery shells and several hundred thousand propellant charge modules. The total gross value of the orders booked in the second quarter of 2024 amounts to almost €300 million. The deliveries will take place between 2024 and 2028.

The need to replenish the armed forces' ammunition stocks resulting from the war in Ukraine has brought Rheinmetall major orders in the field of artillery ammunition. The new orders once again emphasise Rheinmetall's leading technological position in ammunition development and production in Europe.

### ► Key facts

- ▷ NATO customer places order for 155mm artillery ammunition
- ▷ Several tens of thousands of projectiles and several hundreds of thousands propellant charge modules; total gross value almost €300m
- ▷ Delivery between 2024 and 2028
- ▷ Order underlines high customer confidence in Rheinmetall's ammunition expertise
