Rheinmetall wins mid-double-digit million euro order for mortar ammunition for international NATO customer

An international NATO customer has placed an order with Düsseldorf-based technology group Rheinmetall for the production of mortar shells for the NATO partner's armed forces. The value of the order, which was booked at the beginning of the third quarter of 2024, corresponds to a volume in the mid double-digit million euro range.

In total, a six-digit number of mortar shells of various types will be manufactured by Rheinmetall Expal Munitions S.A.U., Spain. The order also includes various additional services as part of the product launch.

Delivery of the ammunition is scheduled to begin in summer 2025 and be completed in summer 2026.

The order underlines Rheinmetall's expertise in the production of state-of-the-art steep-fire weapons in the field of mortar ammunition.

► Key facts

- Incoming order for mortar ammunition for international NATO customer
- Order value in the mid double-digit million euro range
- Six-figure number of mortar shells of various types
