GPSauge™
a product from GPSoverIP Company
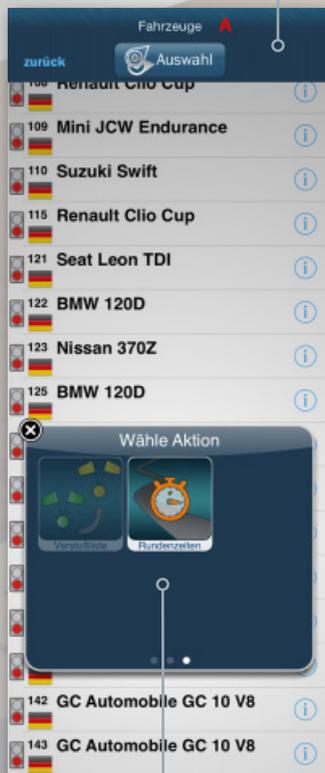

GPSoverIP 24 hours racing App

Monitor your Team through the GPSoverIP racing App

The positions of all vehicles of the 24h-race will be displayed on a clearly arranged digital map,

therewith you have in mind what happens on the speedway and where your driver is at every second.

Make the positions of your drivers viewable to the audience and fill in your Team Profile!

External Monitor
Optionable external monitor.

Fastest Time
Lap Times of your Team are measured with an accuracy of a tenth of a second.

Fastest Driver
The Driver of the Fastest Lap will be shown here.

Action Chooser
The Lap Times- Feature can be found when opening the action chooser of the Team.

Driver Change
This option lets you choose between your drivers.

Lap Time
This new feature lets you compare lap times of different drivers of the same team!
